

Welcome

Although actually resident here for some time, we welcome recent newcomers to the village, David and Janet Burrows to Underhill House. Also, Jo Lavender and her two children to Brookside Cottages.

Village Hall Midsummer Fair. (Proceeds to hall refurbishment) Sunday 20th June; 2pm-6pm

Please come and join in the family fun on Fathers' Day. Attractions include: Dog Show, children's competitions and activities, tug of war, knobbly knees competition, produce and craft show, Shropshire beagles, raffle, many stalls, plate smashing, bar, barbecue, refreshments and ice creams, live music, vehicle displays and much more.

Speed Limit

Hopefully, everyone has noticed that we have recently acquired a 30mph speed limit on the main road through the village. All road users are asked to respect this to reduce the risk to young and old pedestrians.

Yoga

Join the all ability Yoga classes in the village hall very Tuesday evening at 6.45pm.

Hire the Village Hall

The newly extended Village Hall is available for hire from as little as £20. To arrange your next party or function there, or for a viewing, please call Debbie on 718247 or email s-bruce@btconnect.com for full details and availability.

Pulverbatch website

www.pulverbatch.org.uk now has a new page covering wildlife gardening tips for the month. Also, the article where Leslie Marr recalls the happy months he spent in Pulverbatch, which persuaded him to give up a promising career as a documentary filmmaker and return to his first love, painting, has been retrieved and Christine Steel's lovely drawings of the four churches in the benefice have been added. The site has also been updated and new additions made. Please email any contribution to andrewgbwood@hotmail.com or deliver to Home Farm (with a note of your name and address to ensure their return) so they may be scanned.

Village Hall Extension

The building works have been completed at a total cost of £59,000 thanks to major grants from Shropshire Community fund, Shrewsbury and Atcham Council, village hall funds and many local donors. The hall is greatly improved but more work is planned.

Four things you probably never knew your mobile phone could do

Here are a few things that can be done in times of grave emergencies. Your mobile phone can actually be a life-saver or an emergency tool for survival. Check these out .

FIRST – Emergency

The Emergency Number worldwide for mobile phones is 112. If you find yourself out of the coverage area of your mobile network and there is an emergency, dial 112 and the mobile will search any existing network to establish the emergency number for you, and interestingly this number 112 can be dialed even if the keypad is locked. Try it out.

SECOND - Have you locked your keys in the car?

Does your car have remote keyless entry? This may come in handy someday and is a good reason to own a mobile phone..If you lock your keys in the car and the spare keys are at home, call someone at home on their mobile phone from your mobile phone. Hold your phone about a foot from your car door and have the person at your home get the spare key and press the unlock button, holding it near the phone at their end. Your car will unlock. This saves someone from having to drive your keys to you and distance is no object; you could be hundreds of miles away, and if you can reach someone who has the other 'remote' for your car, you can unlock the doors (or the boot).

THIRD - Hidden Battery Power

Imagine your mobile battery is very low. To activate, press the keys *3370# Your mobile will restart with this reserve and the instrument will show a 50% increase in battery. This reserve will get recharged when you charge your mobile next time.

FOURTH - How to disable a STOLEN mobile phone

To check your mobile phone's serial number, key in the following digits on your phone: *#06#.

A 15 digit code will appear on the screen. This number is unique to your handset. Write it down and keep it somewhere safe. When/if your phone gets stolen, you can phone your service provider and give them this code. They will then be able to block your handset so even if the thief changes the SIM card, your phone will be totally useless. You probably won't get your phone back, but at least you know that whoever stole it can't use or sell it either. If everybody does this, there would be no point in people stealing mobile phones.
